DIPLOMAT

New Maroon

Seedling

Carnation

Here at last is a bright maroon carnation with serrated petals that can be handled and shipped without bruising. The flowers are medium to large in size, full to the center and high crowned. Stems are long and rigid and the growth is vigorous with above average production. We believe that **DIPLOMAT** will fulfill a long standing need in the industry for a variety of this color that can be shipped satisfactorily.

DIPLOMAT received the New England Carnation Growers Assoc. New Seedling Award at the American Carnation Society Convention at St. Louis in 1961.

Rooted Cuttings available Dec. 1, 1961

Restricted until Dec. 31, 1964
